Education

Lebanese University, Lebanon

Bachelor of Science in Computer Science

Oct 2023 - Jul 2026

Experience

Frontend Development Intern at Code Alpha

Aug 2026 - Present

- Completing assigned frontend development tasks focused on translating requirements into functional and user-friendly web interfaces.
- Applying core frontend development concepts while building, testing, and refining different interface elements throughout the internship.
- Working on identifying and resolving layout, functionality, and usability issues encountered during development.
- Following task requirements and technical guidance while independently researching solutions and improving assigned work.
- Strengthening practical coding, debugging, problem-solving, and attention-to-detail skills through continuous hands-on development assignments.

Projects

Network Infrastructure & Gateway Troubleshooting

- Diagnosed and resolved local broadband connectivity issues through hands-on gateway configuration and network troubleshooting.
- Configured gateway interfaces and adjusted routing settings to restore and maintain reliable network connectivity.
- Worked with cellular data roaming networks, including Touch and Alfa, to provide alternative connectivity and maintain service availability.
- Applied networking fundamentals, routing concepts, and security practices while identifying and resolving infrastructure issues.
- Strengthened practical troubleshooting skills by identifying root causes and implementing technical solutions independently.

Airline Management System: Software Requirements & System Design

- Developed a comprehensive Software Requirements Specification (SRS) based on standard Software Development Life Cycle principles.
- Analyzed and documented functional and non-functional system requirements.
- Translated business and user requirements into structured software specifications and system documentation.
- Designed UML Use Case Diagrams, Class Diagrams, and Use Case Specifications to model system architecture and user interactions.
- Collaborated with team members to review requirements and maintain consistency across technical documentation and system designs.

Certifications

Google Data Analytics Professional Certificate, Coursera

Jul 2025

Technical Skills

- **Programming & Development:** Python, Java, C++, C#, C, Dart, PHP, JavaScript, Assembly, Flutter, HTML5, CSS3, Front-End Development, GUI Development
- **Software Engineering & Databases:** OOP, Data Structures & Algorithms, SDLC, System Analysis & Design, UML, MySQL, DBMS
- **Networking & Systems:** Computer Networks, Network Security, Operating Systems, Gateway Configuration, Routing Protocols
- **Tools & Technologies:** Git, GitHub, ArcGIS

Languages

Arabic (Native), English and French (Work Proficiency)

Hobbies

Chess, sports, and gaming
